Infertility treatment gynaecologist's appointment

In the examination of infertility, the aim is to identify the reason behind the infertility and, consequently, to find the most appropriate and effective individual treatment method.

Infertility treatment doctor:

- carries out various tests and analyses,
- refers the patient to further tests, if necessary,
- prepares a specific individual treatment plan,
- carries out an infertility treatment suitable for you and/or your partner,
- in case of indications, refers you to a consultation with a geneticist.

Please Note! You do not need a referral letter for an appointment with a gynaecologist.

Appointments can be booked:

- Health Portal https://www.terviseportaal.ee/en/
- by phone 666 1900 **Mon-Fri 7:15-18:00**
- at the reception
