Ophthalmologist’s appointment

An eye doctor, or an ophthalmologist, is a doctor who diagnoses, treats and monitors eye diseases and vision disorders.

Generally, no referral is needed to visit an eye doctor. Our eye clinic is a clinic that performs surgeries, and our ophthalmologists are specialised in fundus diseases, vitreoretinal surgery, corneal diseases, cataract surgery, and uveitis. Children are welcome to visit paediatric ophthalmologists. **A referral from a family doctor or specialist doctor is required for an appointment with these experts! A referral is necessary to get you to the right expert.**

If you need an appointment without a referral, visit the Health Portal atwww.terviseportaal.ee to find appointment times.

Book an appointment:

- on the Health Portal atwww.terviseportaal.ee
- by phone 666 1900 **Mon–Fri 7.30 AM–6.00 PM**
- at the clinic information desk
